Campaign Spending: [List of Filers](#)

Aloha. Thank you for the opportunity to serve in the State House. I ask once again for the privilege to continue to represent you. As a mother, taxpayer, and concerned citizen, I focused my time and energy at the legislature learning and formulating policy on public education, health, and spending your tax dollars wisely.

I believe, and will continue to support those closest to students with the knowledge and hands on experience to effect positive change in our public schools. I believe this includes having real decision making ability, accountability, and support at the school level to do their job.

I believe in leadership by example and seeking wisdom. Having been a business owner and public and private employee, I realize that business and labor are interdependent and balanced laws can strengthen our economy and benefit the working people of Hawaii.

In my experience at the legislature there will always be more good projects/programs to invest in than we can afford. I am committed to asking the tough questions when it comes to spending. Although the life and death of many programs hinge on funding from the state, effective and prudent spending and planning is essential for better quality of life of our residents and their families.

There are many other issues that are of importance to Hawaii. Elected officials have a tremendous responsibility and obligation to the people who elected them. I will continue to be conscientious, hardworking, and attentive to our community desires and needs. Mahalo.
